INTRODUCTION TO FACULTY HANDBOOK

Welcome to Nobel University. For those of you who have been here for some time now, we trust that you have had a fulfilling experience teaching and working at our institution. For those of you who are just beginning your teaching experience at Nobel University, we hope you enjoy your tenure with us.

This handbook contains policies and procedures governing personnel issues at Nobel University. It is designed to be a guide for the faculty in the day-to-day administration of our school.

The purpose of this handbook is to eliminate the need for personal decision on matters of school-wide policy and assure uniformity throughout the organization. It is the responsibility of every member of the faculty to administer these policies in a consistent and impartial manner.

Policy statements are subject to modification and further development. Members of faculty are encouraged to suggest improvements by notifying the Chief Operating Officer or Chief Academic Officer whenever problems are encountered, or improvements are warranted.

It is the responsibility of every employee to read and abide by the rules and regulations spelled out in this handbook and the school catalog. Any suggestions, discrepancies, or inconsistencies in this handbook or the school catalog should be pointed out to the Chief Operating Officer or Chief Academic Officer who, in turn, will take the necessary steps to evaluate the issues at hand and take proper action to address them.

INSTITUTIONAL INFORMATION

MISSION

The mission of Nobel University is to advance responsible business practice through pragmatic education that is entrepreneurial in nature, Christian in focus, and global in orientation.

PURPOSE

Nobel University seeks to create a Christian learning environment in which the educational needs of all undergraduate and graduate students are met through preparation for careers in business-related fields and occupations.

NOBEL UNIVERSITY FAITH STATEMENT

1. We believe that God eternally exists in three persons — the Father, the Son, and the Holy Spirit — having precisely the same nature and attributes.
2. We believe God, by the word of His power, created from nothing the heavens and the earth and all that is in them. He further preserves and governs all His creatures and all their actions according to His most holy, wise, and powerful providence.
3. We believe that man was created in the image of God, good and upright, but fell from his state of innocence by voluntary disobedience of God.
4. We believe that salvation is entirely by the grace of God, apart from human works or merit, and that it is received through faith in Jesus Christ, who died for our sins.
5. We believe that there is a personal devil who seeks to tempt and separate people from God.
6. We believe the bodies of men, after death, return to dust and see corruption, but their souls, which neither die or sleep, having an immortal subsistence, immediately return to God who gave them.
7. We believe that the Church is the body of Christ and that the people of God are called to community, worship, discipleship, mission, and education.

INSTITUTIONAL OBJECTIVES

In support of the mission statement, Nobel University has developed four objectives. By the completion of the degree program, students will be able to:

1. Demonstrate the most contemporary theories, principles, and concepts in its business program offerings.
2. Demonstrate cultural awareness and tolerance through the intellectual and social development.
3. Demonstrate a sense of professionalism, including values, ethics, and the necessary judgment to function effectively in their chosen business field.
4. Demonstrating biblical and ethical standards in personal life and career

PROGRAMS OF STUDY

Nobel University offers the Bachelor of Arts in Business Administration and Master of Business Administration programs to prepare students for entry-level, and junior to senior level business positions, respectively, in the business community.

HISTORY

Nobel University's main campus was founded in the summer of 2000 in Los Angeles, California. Committed to producing quality practitioners of Oriental Medicine, the School began by offering the Master of Science in Oriental Medicine program (MSOM).

In 2003, the Bureau for Private Postsecondary Education approved the School to offer a certificate program in English as a Second Language (ESL), and in 2004 it was approved to offer the Bachelor of Arts in Business Administration (BBA) and Master of Business Administration (MBA) programs. In 2006, the School added the Bachelor of Arts in Church Music program (BCM). In 2009, a branch campus of the School was established in Buena Park, California to accommodate the growing student body.

In 2013, Nobel University shifted its strategic plan and its focus by concentrating exclusively on its business program offerings. Since Nobel University no longer provides the Certificate in English as a Second Language, Bachelor of Arts in Church Music, and Master of Science in Oriental Medicine programs, the School is able to specialize in the business education and deliver world-class education to its students.

SEXUAL HARASSMENT

Consistent with the Nobel University's policy on equal employment opportunity, harassment in the workplace based on a person's race, color, sex, religion, national origin, age, disability, or any other protected class, will not be tolerated concerning employees or applicants for employment. Nobel University is committed to preventing and promptly correcting such harassing behavior.

Harassment of any form is condemned in the workplace, and the school recognizes its duty to provide employees with a harassment-free environment in which to work. The following describes the type of conduct that is prohibited as well as the complaint provisions to investigate and remedy any problems that may arise. Each complaint of such conduct will be given swift and serious attention and will be thoroughly investigated. There will be no reprisals taken against any employee for making allegations or inquiries concerning harassment.

Sexual harassment can also be any activity, which creates a hostile or offensive working environment for members of one sex -- whether such activity is carried out by a supervisor or a coworker. It is also sexual harassment for a supervisor to take disciplinary action against or deny a promotion to an employee because he or she rejected sexual advances. Behavior that constitutes sexual harassment includes but is

not limited to the following: unwelcome sexual advances, requests for sexual favors, sexual exploitation, gestures or other forms of communication of a sexual nature considered inappropriate to the employment setting of the Nobel. In addition, actions, words, jokes or comments based upon an individual's race, ethnicity, age, religion, disability, or any other legally protected class, is harassment.

Sexual harassment of students, staff, or faculty is strictly prohibited by law and by school regulations. Sexual harassment is unacceptable and will not be tolerated on campus. The campus community will take all necessary and appropriate steps to protect students, staff, and faculty from sexual harassment and all forms of sexual intimidation and exploitation. Complaint procedures for employee complaints are available in the office of the Chief Operating Officer. The staff and faculty may receive informal counseling and formal assistance by contacting the Chief Operating Officer. The school encourages students, staff and faculty to become aware of and to take responsibility for their own security.

It is the obligation of all employees to Cooperate fully in any investigation process. Disciplinary action may be taken against any employee who is uncooperative or who attempts to discourage or prevent an employee from using the school's complaint procedure to report unlawful harassment. Retaliation by the Nobel employee against any individual who makes a complaint of unlawful harassment is strictly prohibited. Similarly, any person who participates or cooperates in any manner in an investigation or any other aspect of the process described herein shall not be retaliated against. Retaliation is itself a violation of this policy and is a serious offense. Complaints regarding allegations of reprisal should be immediately brought to the attention of the Chief Operating Officer.

Discipline that the school may impose on employees for behavior that violates this policy and other unprofessional conduct by the Nobel University employee may include, but is not limited to, reprimand, suspension, demotion or dismissal. Unlawful harassment by non-employees may result in restricting the harasser's access to all Nobel offices and operating units.

In addition to the Nobel University's internal complaint procedure, employees may also contact the Equal Employment Opportunity Commission (EEOC) or the California Department of Fair Employment and Housing (DFEH) to report unlawful harassment.

FREEDOM OF SPEECH

Nobel University firmly believes in the individual's right to expression, so long as such expression does not infringe upon or suppress the rights of other individuals. Article 1, Section 2(a) of the California Constitution, states that every person may freely speak, write, and publish his or her sentiments on all subjects. Communications involving hate violence, sexual and/or racial discrimination, and "fight words" are not protected by the law. The Nobel shall uphold and enforce these rights, and should any person's actions violate the rights of another individual, such person shall be subject to disciplinary action.

Freedom of inquiry and the open exchange of ideas are fundamental to the vitality of Nobel University. The principles of academic freedom are critical to ensure higher education's important contribution to

Nobel University reaffirms its support of the principles of academic freedom as they apply to the rights of students in a class and school environment that fosters civil discourse, respect, open inquiry and freedom of expression.

PROFESSIONAL RIGHTS OF FACULTY

In support of the University's central functions as an institution of higher learning, a major responsibility of the administration is to protect and encourage the faculty in its teaching, learning, research, and public service. The authority to discipline faculty members in appropriate cases derives from the shared recognition by the faculty and the administration that the purpose of discipline is to preserve conditions hospitable to these pursuits. Such conditions, as they relate to the faculty, include, for example:

1. Free inquiry, and exchange of ideas.
2. The right to present controversial material relevant to a course of instruction.
3. Enjoyment of constitutionally protected freedom of expression.
4. Contribute to development of course content and manner of instruction.
5. Establish requirements for matriculation and for degrees.
6. Participate in the Faculty Senate.
7. Establishment of norms for teaching responsibilities and for evaluation of both faculty and student achievement.
8. Participate in the determination of the forms of departmental governance.
9. The right to be judged by one's colleagues, in accordance with fair procedures and due process, solely on the basis of the faculty members' professional qualifications and professional conduct

ACADEMIC GOVERNANCE POLICY

The Academic Governance Policy of Nobel University addresses the responsibility and authority of faculty relative to academic governance matters. In addition, the policy provides guidelines for effecting change in the institution's curriculum.

ROLE OF THE FACULTY IN PARTICIPATING, ADMINISTERING AND IMPLEMENTING POLICY RELATIVE TO MATTERS INVOLVING ACADEMIC GOVERNANCE

Policy must address, at a minimum, the following roles of faculty in: (a) the development of the educational program of the institution; (b) selection of the course materials, instructional equipment and other educational resources; (c) systematic evaluation and revision of the curriculum; and (d) assessment of student learning outcomes; and (e) planning for instructional effectiveness.

Development of the Educational Program of the Institution

Central to the role of the faculty in participating, administering and implementing policy relative to matters involving academic governance, academic governance policies dictate the manner in which curricula are developed, overseen and approved.

Determining the Curriculum

The faculty is the basic and most important unit in determining curricula. The faculty's involvement in curricula change occurs through the academic department. In the case of Nobel University, the academic departments are the Bachelor of Arts in Business Administration (BBA) and the Master of Business Administration (MBA). Departments recommend their own departmental courses and programs after careful consideration by the faculty of that department. Each department has a presentational Academic Advisory Committee consisting of three faculty members, one of whom is elected as Chair, administrative staff, student representatives, and outside employer. The responsibility of the Academic Advisory Committees is to carefully consider changes to courses, programs, policies, or structures within or affecting that program. All recommendations stemming from the Committees must be submitted to the Chief Academic Officer for review, approval or rejection.

Non-substantive changes in the curriculum, such as reorganization of topics, homework, projects, and the like are ultimately determined by the faculty concerned and the Program Director. Substantive changes, such as adding or deleting courses from a program or degree, require approval by the Chief Academic Officer.

The President, working closely with the Institutional Advisory Board, provides the overall direction and vision of Nobel. The oversight of the educational program is the responsibility of the Chief Academic Officer, who is responsible for instituting academic changes on the programmatic level. The Academic Advisory Committee has the primary responsibility and authority over content, quality and effectiveness of the curriculum of the Nobel. This responsibility includes the development, assessment and ongoing improvement of the curriculum. All curriculum improvement is overseen by the department's Academic Advisory Committee.

Development of Syllabi

The development of a course syllabus begins with the faculty and working in concert with the Chief Academic Officer (CAO), the faculty has the responsibility to develop a course syllabus. For the sake of consistency, the CAO provides each faculty with a template for the syllabus format. The CAO also provides general guidelines in developing syllabi, such as adhering to the format provided, ensuring currency of the educational materials selected, assigning proper amount of homework, assigning grades, etc. These guidelines are addressed in faculty meetings led by the CAO. On occasion, in-service training meetings are arranged to assist faculty with writing sound educational objectives, effective instructional techniques, motivating student learning, and so on.

Selection of the Course Materials, Instructional Equipment and Other Educational Resources

The faculty has the responsibility and authority to select appropriate course materials. Faculty take into consideration that such materials are not dated and are consistent with the course description and objectives. Likewise, the faculty has the responsibility and authority to select appropriate instructional equipment and other educational resources to deliver courses. Such equipment may include overhead projectors, laptop computers, projection screens, etc. Faculty can make arrangements to have these items made available to them with a one-day notice to the on-site administrator.

Systematic Evaluation and Revision of the Curriculum

Systematic evaluation and revision of the curriculum falls under the responsibility of the faculty. At the end of a course, each faculty must evaluate the course and instruction through a Student Course and Instructor Evaluation form administered to all students. Faculty meet with the CAO to review these student evaluations. As a result of this meeting and self-reflection by the faculty, the curriculum may be revised.

Assessment of Student Learning Outcomes

The faculty has the responsibility and authority to determine the manner in which student learning outcomes are assessed. Traditionally, a number of methods have been used to assess student learning outcomes, including announced and un-announced quizzes, participation in class discussions, performance tests, mid-term exams, final exams, papers, presentations, and the like. Faculty has the ultimate say on how such learning outcomes are to be assessed. Such assessment tools must be explicitly stated in syllabi which are handed to students on the first day of classes. Such assessments are reduced to numerical values which are then translated to letter grades.

Planning for Instructional Effectiveness

Instructional effectiveness is yet another role of faculty's participation in the academic governance of the institution. Instructional effectiveness is a measure of how the faculty is performing in planning the delivery of course content. This plan may include structural considerations, such as how a course is organized as a whole, how the day-to-day schedule is structured, but also whether the course utilizes

lecture, group discussions, field trips, student presentations, etc. as its means of effectuating sound learning outcomes.

ACADEMIC GOVERNANCE GUIDELINES

GUIDELINE I

Any proposal for changes (excluding course changes within existing programs) in programs or structures must first be acted upon by the faculty of the department concerned before being presented to the Academic Advisory Committee. After a proposal for curricular or structural change has been acted upon by the Academic Advisory Committee, the Chief Academic Officer may then present the proposal to the President who, in turn, will seek the recommendations of Institutional Advisory Board.

GUIDELINE II

The Academic Advisory Committee is, in most circumstances, the final recommending body to the President and Chief Academic Officer. The membership of Academic Advisory Committee shall consist of the Chair, two faculty members, student representatives, and outside employer. The term for the Committee membership is two years for the chair, faculty members, and administrative staff and is renewable. However, the term for the student representative and outside employer is one year and is renewable. The Chair of the Academic Advisory Committee shall be a faculty member and elected from the membership of that department. The seat vacated by the Chair shall be replaced by a faculty member from the same program as the Chair.

GUIDELINE III

If a proposal for changes in a department's curriculum is not approved by the Academic Advisory Committee, the group initiating the proposal may appeal directly to the Chief Academic Officer.

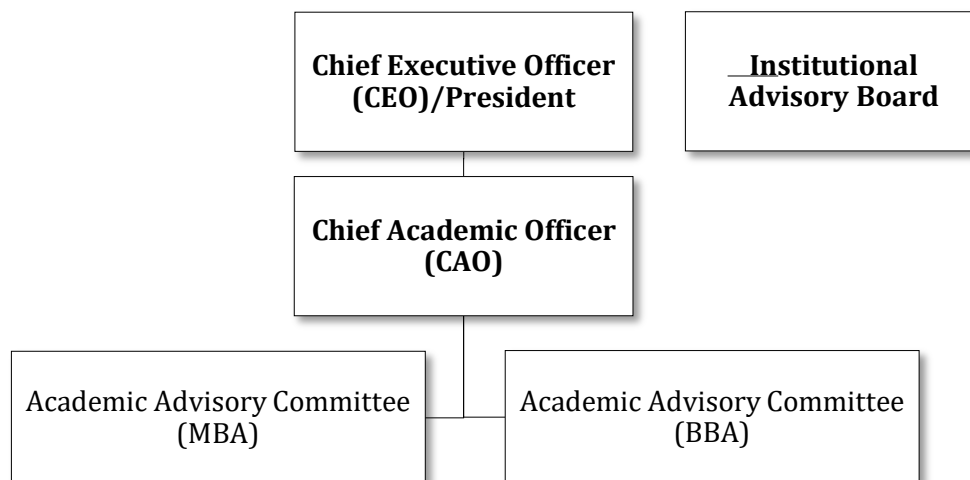

GUIDELINE IV

It shall be the policy of the President and the Institutional Advisory Board to entrust the Academic Advisory Committee with the following specific responsibilities and expectations for curriculum development and control, which include:

1. The Academic Advisory Committee shall ensure all academic programs are consistent with the institutional mission, objectives and goals.
2. The Academic Advisory Committee shall ensure that syllabi are consistent with the guidelines established by the institution's accrediting agency.

3. The policy of the Academic Advisory Committee shall be to limit its involvement in academic governance to policy making and expect the administration and faculty to implement the policy on a day-to-day basis without interference.
4. The Academic Advisory Committee has the right of approval of changes in curriculum.
5. The Academic Advisory Committee, in cooperation with the Chief Academic Officer, shall organize the academic administration in terms of faculty structure as well as oversight of the Library.
6. The Academic Advisory Committee has the responsibility of determining the institutional graduation requirements of all degrees.
7. Any new curriculum or academic program requires the approval of the administration through the office of the President.
8. The details of the implementation of the Academic Advisory Committee role in academic governance should be spelled out in the Faculty Handbook.
9. The President shall have the final authority to adopt new programs and the program offerings at the Nobel.

CURRICULUM APPROVAL PROCESS FLOW CHART

GRIEVANCE/COMPLAINT POLICY

It is important that employees are treated fairly and receive prompt responses to problems and concerns. For this reason, the Nobel provides grievance procedure to promote prompt and responsible resolution of issues raised by faculty and administrators. This procedure may be used freely without fear of retaliation, and the Chief Operating Officer is available to assist throughout the procedure. The process outlined below should be used if an individual disagrees with a supervisor’s action including any disciplinary action. If the problem involves discriminatory harassment, sexual harassment and/or discrimination, reference to those policies should be made to initiate a complaint. When unsure which policy applies, contact should be made with the Chief Operating Officer for assistance.

Step 1. Discuss complaint with immediate supervisor.

The Nobel encourages informal resolution of complaints. Employees should first discuss the complaint with their immediate supervisor within three (3) business days of the situation whenever possible. If the complaint is not resolved as a result of this discussion or such a discussion is not appropriate under the circumstances, should prepare the Employee Complaint Procedure Form and submit it to the immediate supervisor within five (5) business days of the discussion, or proceed to Step Two.

Step 2. Prepare and submit Employee Complaint Procedure Form to second-level supervisor for review.

If the employee feels the complaint was not resolved in discussions with his/her immediate supervisor, they may prepare and submit a formal written complaint for review by the person to

whom the employee's immediate supervisor reports ("second-level supervisor"). To do so, the employee should prepare the Employee Complaint Procedure Form and submit it to the second-level supervisor within seven (7) business days of the Step One discussion with the immediate supervisor (or within seven (7) days of the event being grieved if Step One is bypassed). The second-level supervisor will then review the complaint, send a copy to the immediate supervisor (if appropriate), and schedule a meeting for the employee to discuss the complaint. The meeting will ordinarily be held within five (5) business days of the second-level supervisor's receipt of the Employee Complaint Procedure Form. The second-level supervisor will issue a written decision, generally within five (5) business days of the meeting. If the complaint is not resolved to the employee's satisfaction, proceed to Step Three.

Step 3. Submit Complaint Procedure Form for Final Appeal to third-level supervisor.

If the employee is not satisfied with the Step Two decision, they may submit the complaint to whom the employee's second-level supervisor reports ("third-level supervisor"). The third-level supervisor with administrative responsibility will issue a written decision within seven (7) business days of receipt of the Step Two decision. The third-level supervisor will provide the Nobel's final written response, generally within fourteen (14) business days.

Faculty may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 toll-free or by completing a complaint form, which can be obtained on the bureau's internet web site, www.bppe.ca.gov.

Faculty may also file a complaint with the TRACS Accrediting Agency by completing the TRACS Complaint Form found on www.tracs.org/resources/ and submitting to:

President
Transnational Association of Christian Colleges and Schools
15935 Forest Road
Forest, VA 24551.

INTELLECTUAL PROPERTY

Nobel University fosters and supports the school environment that encourages creativity and development of new intellectual works in their various forms by its faculty. However, with respect to intellectual works that are created at the direction of the school to support administrative/non-instructional functions and other works specifically designated by the Nobel University, the school will generally retain ownership and rights to the work, subject to specific written agreements to the contrary.

THE NOBEL UNIVERSITY'S ROLE

The School will ensure fair treatment of all parties and will take the following actions:

1. Provide a supportive environment;
2. Use reasonable effort to exploit and protect intellectual property generated by its faculty and students;
3. Maintain fairness and adequate incentives in the distribution of residual income;
4. Consider proposals from individual with respect to exploitation and protection of intellectual property.

THE FACULTY'S ROLE

The faculty is required to:

1. Report any work undertaken on behalf of an external body and any conflicting outside commercial interests;
2. Report the development of any intellectual property as it arises;
3. Keep key information confidential until it is protected;
4. Report any potential conflict of interest.

INSTRUCTIONAL USE OF COPYRIGHTED MATERIALS

Nobel University recognizes that accomplishment of its mission may be facilitated by the use of works owned or created by others. It is the policy of the school that students, employees, and other individuals who use school facilities and/or equipment, and students, employees, and other individuals who use off-campus non-Nobel facilities and/or equipment in connection with Nobel University activities or on behalf of the Nobel University, shall recognize those accomplishments by respecting the intellectual property of others and using such works only to the extent such use would be permitted by law. For example, this policy applies when photocopying is undertaken at all central copying centers, machines in the library, or on any other reproduction equipment owned or leased by the Nobel or used in connection with Nobel activities or on behalf of the Nobel University.

The faculty member must first discuss textbook selections with the Program Director. If any disagreement arises, final decision rests with the Chief Academic Officer.

Faculty members select required and recommended textbooks for courses for which they are responsible. They determine the number of required textbooks based on the needs of the course and what is a reasonable financial burden for the students.

At the beginning of each semester, the Librarian sends a library Material Request Form to faculty requesting textbook orders for the following semester. Faculty return the completed request form to the library personnel. The librarian determines priority of the textbook requests. In case the textbooks are requested as essential purchase, the librarian determines final quantities and places orders for all textbooks. If a textbook is for the following semester, the request will be reviewed by the library committee and the purchase will be made later.
